Kaci Buhl, Director

The PSEP at Oregon State University delivers high quality educational programs on the proper use of pesticides, which includes Integrated Pest Management (IPM).

REGISTER ONLINE TODAY: <https://beav.es/o5g>

OSU is not accepting checks or paper registration forms. For help with registration, contact OSU Conference Services at Conferences@oregonstate.edu. For general questions regarding PSEP programming, contact PSEP at OregonStatePSEP@gmail.com or (541) 737-5958.

12 High-Quality Webinars and 6 In-Person Events

This season, we are planning 12 webinars and 6 in-person events. Each course features a variety of speakers from industry, academia, and government. Our recertification training events are focused on the proper use of pesticides, which includes Integrated Pest Management (IPM).

- All of our webinars are four hours long and cost \$80 per person. Each webinar offers four credits for pesticide applicator recertification.
- We offer morning sessions 8am to 12pm.
- Tailor your recertification experience by picking the most relevant topics to your industry and interests.
- You can view the agenda for each 4-hour session on the [PSEP website](#).
- Registration closes at midnight the night before the selected webinar.

Online Registration Has Never Been Easier

With our online registration system, you can easily view all of our sessions and select multiple events, all on one screen. OSU is not accepting checks or paper registration forms.

Simple Technology

You will need an email address, and an internet-connected computer, tablet, or smart phone. We will send an email confirmation, an email reminder before the webinar, and an email evaluation form. If you don't see the emails, be sure to check your spam/junk folder. ALL webinars are hosted via Zoom.

REGISTER ONLINE TODAY: <https://beav.es/o5g>

Additional webinars may be added throughout the season. Check our website for updates.
