

# Sustainable Living Series

## Changing the World, One Native Pollinator Garden at a Time

September 12 Zoom, 6-7:30 pm

September 14 Garden Tour at Pollinator Project Rogue Valley, 12-2 pm

Why are native plants so important? What simple things can we do as land stewards, with a property of any size, to help support the ecosystems and food systems in Southern Oregon? Kristina will introduce you to all the pollinators of our region and will share ideas on how to welcome them to your property.

**Kristina Lefever** is passionate about growing, sharing, and planting the native annuals, perennials, shrubs, and trees that create the habitats that best support our region's native pollinators, and thus, all the creatures that depend upon them. She is honored to serve as president and volunteer director of Pollinator Project Rogue Valley, a growing nonprofit based in Phoenix, Oregon. Kristina earned her Master Gardener certification in 2016.

The **Sustainable Living Series** is presented by the Oregon State University Extension Land Steward Program, Master Gardener™ Program, and the Jackson Soil & Water Conservation District.

Join us online via Zoom on Thursday, September 12 and in person at PPRV on Saturday, September 14. Register at <https://beav.es/UcY> or call OSU Extension at 541-776-7371.

**Zoom class: \$15**  
**In-person class: \$10**  
**(or sliding scale)**

Zoom registrants will receive a link to the recording after the Zoom class.

Fees help support the Land Steward and Master Gardener™ Programs. Email [rachel.werling@oregonstate.edu](mailto:rachel.werling@oregonstate.edu) for more information.

OSU Extension Service prohibits discrimination in all its programs, services, activities, and materials. Accommodation requests related to a disability should be made 7 days prior to Rachel Werling 541-776-7371, or [rachel.werling@oregonstate.edu](mailto:rachel.werling@oregonstate.edu).
