

Sustainable Living Series

Regenerative Gardening: Bringing the Life and Joy Back to Your Garden

August 7, 6-7:30 pm

Join this fun class to discover easy-to-implement strategies to re-invigorate life in your soil and create systems that cultivate joy in your garden. You will leave this class with actionable steps to help solve problems and will understand biological relationships that will help your garden thrive. Bring questions, garden puns, and a sense of humor.

Rhianna Simes (Wry-anna Sims) recently retired from 10 years as an instructor at the Southern Oregon Research and Extension Center, where she developed the Land Steward Program and coordinated the Master Gardener Program. She earned a Master of Science in Education and Botany from Southern Oregon University in Ashland. Rhianna has worked in plant nurseries for 13 years, is a plant nerd who is passionate about local food, seed sovereignty, and making education fun! She lives with her husband and two young children outside Talent, OR, where they operate their own organic farm called Verdant Phoenix (verdantphoenix.com), which specializes in organic plant starts, basketry willow, perennial food, healthy soil, and natural farming.

The **Sustainable Living Series** is presented by the Oregon State University Extension Land Steward Program, Master Gardener™ Program, and the Jackson Soil & Water Conservation District.

Join us online via Zoom on Wednesday, August 7. Register at <https://beav.es/UcY> or call OSU Extension at 541-776-7371.

Registrants will receive a link to the recording after the class. Cost is \$15 or sliding scale.

Fees help support the Land Steward and Master Gardener™ Programs. For more info, email rachel.werling@oregonstate.edu.

OSU Extension Service prohibits discrimination in all its programs, services, activities, and materials. Accommodation requests related to a disability should be made 7 days prior to Rachel Werling 541-776-7371, or rachel.werling@oregonstate.edu.
