

# Keep your ground! Learn how to prevent erosion

## Preventing farm and riparian soil erosion

Eroding soil is a drag! Losing land to erosion can lower your property value, decrease arable land, and reduce the quality of your water. The good news is, there are ways to prevent soil erosion.

Join OSU Extension and the Douglas Soil and Water Conservation Service for a discussion on keeping your soil on your land, increasing water quality and stabilizing eroding stream banks.

This workshop will cover how erosion occurs, the solutions to stop it, and the resources available to you from the Douglas Soil and Water Conservation District.

### When:

**August 23, 2024**

**3:00 pm - 5:00 pm**

### Where:

**Extension Auditorium**

**1134 SE Douglas Ave.**

**Roseburg, OR 97470**

### Registration:

**Open to the Public**

**Registration Ends August 19th, 2024**

### Cost:

**Free to attend**

**Registration required**

### More Information:

**Logan Bennett**

**(541) 236-3015**
